

WB-700 WB Series Thinner

Features:

1. High quality thinner, specially developed for DW primer, basecoat and topcoat.
2. Available with fast, standard, slow and extra slow drying speed to match different Products and different application requirements.

Usage: To reduce the application viscosity, increase the smoothness of paint film Good solubility.

Characteristic:

WB-700 FAST	1k basecoat only, with very fast evaporation speed, suitable for spot repair or application below 15°C
WB-700 Standard	Standard thinner for 1k basecoat and 2k products, with medium evaporation speed, suitable for spot repair or application 15°C-25°C
WB-700 Slow	For 1k basecoat and 2k products, with slow evaporation speed, suitable for spot repair or overall refinishing or application at 25°C-30°C
WB-700 Extra Slow	2k products only, with very slow evaporation speed, suitable for overall refinishing, large area application or application over 30°C

Note:

1. If the temperature and humidity are too high, 10~30% WB-450 Retarder Solvent can be added.
2. Shelf life: 2 years in original sealed can at cool and dry place at 25°C. Packaging: 1L, 4L or 5L
